### BartonPartners Announces Promotions

Shawn Machese has been promoted to Project Manager

Matt Auchey has been promoted to Project Coordinator

Jack Messier has been promoted to Project Coordinator

Melissa Smithers has been promoted to Project Coordinator

**Norristown, PA – November 16, 2007** – BartonPartners is delighted to announce the promotions of Shawn Machese to Project Manager; and Matthew Auchey, Jack Messier, and Melissa Smithers to Project Coordinators.

“We are pleased to announce these promotions,” said Thomas Barton, III, AIA, owner and principal for the firm. “BartonPartners has always had a philosophy of promoting from within, and we are glad that we have created an environment where there is an opportunity for our staff members to grow.”

Mr. Machese has been with BartonPartners for 5 years. He has coordinated and designed projects ranging from townhouses to single-family homes, mid-rise rental and for-sale buildings, mixed-use and commercial design, market rate and affordable housing, active adult and senior housing, and adaptive reuse.

Mr. Auchey started at BartonPartners in 2006, and has taken on a leadership role with many of the firm's multi-family and mixed use efforts.

Mr. Messier has been with BartonPartners since 2005. He focuses on active adult and senior housing, as well as historic preservation.

Mrs. Smithers has been with BartonPartners since 2003 and specializes in active adult and senior housing, as well as mixed use and urban infill projects.

**About the Firm:**

**BartonPartners** is a full-service integrated architecture and planning firm with a staff of more than fifty architects, planners, and landscape architects. Founded in 1990, the practice originated in residential development in the Middle Atlantic region, and has evolved to include mixed-use and commercial design, adaptive reuse and rehabilitation of existing structures, single- and multi-family projects including rental and low- to moderate income housing, 50+ lifestyle communities, transit-oriented design, and urban infill development throughout the United States.
